CONTENTS OF VOLUME 25

Volume 25, No. 1, 1993

Editorial

1

Clinical Sciences

Clinical Case Study

Osteoid osteoma of the os calcis in a teenage athlete
Jonathan L. Chang and Mary Lloyd Ireland 2

Clinical Investigations

Effect of ibuprofen use on muscle soreness, damage, and performance: a preliminary investigation
Scott M. Hasson, Jerry C. Daniels, Jon G. Divine, Bruce R. Niebuhr, Shirley Richmond, Philip G. Stein, and Jay H. Williams 9

Determinants of $\dot{V}O_{2peak}$ in patients with end-stage renal disease: on and off dialysis
Geoffrey E. Moore, Karl R. Brinker, James Stray-Gundersen, and Jere H. Mitchell 18

Tilt table testing in the evaluation and management of athletes with recurrent exercise-induced syncope
Blair P. Grubb, Peter N. Temesy-Armos, Daniela Samoil, Douglas A. Wolfe, Harry Hahn, and Laura Elliott 24

Basic Sciences/Regulatory Physiology

Discriminations between cross-country and downhill skiers by pulmonary and local ^{31}PNMR evaluations
Didier Laurent, Henri Reutenauer, Jean-François Payen, Anne Favre-Juvin, Jacqueline Eterradossi, Jean-François Lebas, and André Rossi 29

Heart rate transient at the onset of active and passive dynamic exercise
Antonio Claudio L. Nóbrega and Claudio Gil S. Arújo 37

Effects of electrolytes in carbohydrate beverages on gastric emptying and secretion
N. J. Rehrer, E. J. Beckers, F. Brouns, W. H. M. Saris, and F. Ten Hoor 42

Exercise training alters feed efficiency and body composition in iron deficient rats
Brian W. Tobin, John L. Beard, and W. Larry Kenney 52

Applied Sciences

Symposium: Assessment of Physical Activity
Chairperson: William L. Haskell

Measurement of physical activity to assess health effects in free-living populations
Ralph S. Paffenbarger, Jr., Steven N. Blair, I-Min Lee, and Robert T. Hyde 60

Compendium of Physical Activities: classification of energy costs of human physical activities
Barbara E. Ainsworth, William L. Haskell, Arthur S. Leon, David R. Jacobs, Jr., Henry J. Montoye, James F. Sallis, and Ralph S. Paffenbarger, Jr. 71

A simultaneous evaluation of 10 commonly used physical activity questionnaires
David R. Jacobs, Jr., Barbara E. Ainsworth, Terryl J. Hartman, and Arthur S. Leon 81

Validity and reliability of self-reported physical activity status: the Lipid Research Clinics questionnaire
Barbara E. Ainsworth, David R. Jacobs, Jr., and Arthur S. Leon 92

Seven-day recall and other physical activity self-reports in children and adolescents
James F. Sallis, Michael J. Buono, Julia J. Roby, Frank G. Micale, and Julie A. Nelson 99

Simultaneous measurement of heart rate and body motion to quantitate physical activity
William L. Haskell, Martin C. Yee, Anthony Evans, and Pamela J. Irby 109

Psychobiology and Social Sciences

Electroencephalographic measures of attentional patterns prior to the golf putt
Debra J. Crews and Daniel M. Landers 116

Physical Fitness and Performance

Effect of time zone and game time changes on team performance: National Football League
Richard Jehue, David Street, and Robert Huizenga 127

Effect of training on the relationship between maximal and submaximal strength
Randy W. Braith, James E. Graves, Scott H. Leggett, and Michael L. Pollock 132

Special Communications
Methods

Sources of a variation in oxygen consumption during a stepping task
Scott G. Thomas, Iris M. R. Weller, and Michael H. Cox 139

Anthropometric measurements and estimating body composition in ballet dancers
Albert C. Hergenroeder, Bridgette Brown, and William J. Klish 145

A comparison of methods to predict minimal weight in high school wrestlers
R. Randall Clark, Jacqueline M. Kuta, Jude C. Sullivan, William M. Bedford, John D. Penner, and Eric A. Studesville ... 151

Technical Note

Metabolic response to graded downhill walking
D. M. Wanta, F. J. Nagle, and P. Webb ... 159

Book Reviews ... 163

Reviewers for 1992 ... 166

Volume 25, No. 2, 1993

Guest Editorial 169

Retrospection

Urinary excretion of immunoglobulins and their subunits in human subjects before and after exercise
J. R. Poortmans and R. W. Jeanloz ... 171

Clinical Sciences

Clinical Case Study

False negative bone scan in a female runner
James C. Sterling, Ronald F. Webb, Jr., Michael C. Meyers, and R. David Calvo ... 179

Clinical Investigations

Changes in peripheral blood lymphocyte subsets associated with marathon running
Afrozul Haq, Khalid Al-Hussein, Jennifer Lee, and Sultan Al-Sedairy ... 186

Relationship of lactate and ventilatory thresholds in cardiac transplant patients
Peter H. Brubaker, Michael J. Berry, Susan C. Brozena, Deborah L. Morley, James D. Walter, Albert M. Paolone, and Alfred A. Bove ... 191

Clinical Epidemiology

Epidemiology of injuries associated with physical training among young men in the army
Bruce H. Jones, David N. Cowan, J. Pitt Tomlinson, John R. Robinson, David W. Polly, and Peter N. Frykman ... 197

Surveillance of serious recreational injuries: a capture-recapture approach
Ronald E. Laporte, Harold W. Kohl, Stephen R. Dearwater, Andrea M. Kriska, Robyn Anderson, Deborah J. Aaron, Todd Olsen, and Daniel J. McCarty ... 204

Basic Sciences/Regulatory Physiology

Symposium: Oxidant stress, aging, and exercise
Chairperson: R. R. Jenkins

Introduction: oxidant stress, aging, and exercise
R. R. Jenkins and A. Goldfarb ... 210

Influence of exercise on clearance of oxidant stress products and loosely bound iron
R. R. Jenkins, K. Krause, and L. S. Schofield ... 213

Exercise-induced oxidative stress
Helaine M. Alessio ... 218

Antioxidant enzyme response to exercise and aging
Li Li Ji ... 225

Antioxidants: role of supplementation to prevent exercise-induced oxidative stress
Allan H. Goldfarb ... 232

Applied Sciences

Epidemiology

Increased life expectancy of world class male athletes
Seppo Sarna, Timo Sahi, Markku Koskenvuo, and Jaakko Kaprio ... 237

Biodynamics

Influence of quadriceps conditioning on soleus motoneuron excitability in young and old adults
David M. Koceja ... 245

Evaluation of moment-angle curves in isokinetic knee extension
Maarten F. Bobbert and Jaap Harlaar ... 251

Is running style and economy affected by wearing respiratory apparatus?
William L. Siler ... 260

Physical Fitness and Performance

Visual loss and performance in blind athletes
Vasilis I. Makris, Robert D. Yee, Carl D. Langefeld, Amy S. Chappell, and Charles W. Slemenda ... 265

Effects of aerobic training in adolescents with Down syndrome
A. Lynn Millar, Bo Fernhall, and Lee N. Burkett 270

The influence of high-intensity exercise training on the W_{lm}-T_{lm} relationship
David G. Jenkins and Brian M. Quigley 275

Special Communications

Methods

Simultaneous derivation of clothing-specific heat exchange coefficients
W. L. Kenney, D. J. Mikita, G. Havenith, and P. Crosby 283

Effect of bone density on body composition estimates in young adult black and white women
Kristin Deck Côté and William C. Adams 290

Comparison of two methods for computing exogenous substrate oxidation using ^{13}C-labeling
F. Péronnet, E. Adopo, D. Massicotte, G. Brisson, and C. Hillaire-Marcel 297

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Matthew J. Kluger, Heather A. Ashton, James B. Doshi, Patrick S. Hein, Jason S. Newby, and Ruth S. Philips ... 303

Response
Randy Eichner 304

Book Reviews 305

Corrigendum 307

Volume 25, No. 3, 1993

Guest Editorial 309

Retrospection

Thermal effects of prolonged treadmill exercise in the heat
Carl V. Gisolfi and John R. Copping 310

Clinical Sciences

Commentary

Functional cervical spinal stenosis: a contraindication to participation in contact sports
Robert C. Cantu 316

Clinical Case Study

Inguinal mass in a college football player: a case study
Brent S. E. Rich, David O. Hough, Jeffrey S. Monroe, and Sally Nogle 318

Clinical Investigations

Restriction of the injury response following an acute muscle strain
Ashok S. Reddy, Michael K. Reedy, Anthony V. Seaber, and William E. Garrett, Jr. 321

Dietary intakes and biochemical profiles of nutritional status of ultramarathoners
Anita Singh, Paul Evans, Kathleen L. Gallagher, and Patricia A. Deuster 328

Basic Sciennes/Regulatory Physiology

Original Investigations

Relationship of oxygen consumption and cardiac output to work of breathing
J. Richard Coast and Kevin M. Krause 335

Glycemia and exercise training alter glucose transport and GLUT4 in the Zucker rat
W. M. Sherman, J. E. Friedman, J.-P. Gao, M. J. Reed, C. W. Elton, and G. L. Dohm 341

Glycogen resynthesis in skeletal muscle following resistive exercise
David D. Pascoe, David L. Costill, William J. Fink, Robert A. Robergs, and Jeffery J. Zachwieja 349

Effects of surface electrostimulation on the structure and metabolic properties in monkey skeletal muscle
Andre-Xavier Bigard, Francoise Lienhard, Daniele Merino, Bernard Serrurier, and Charles-Yannick Guezennec 355

Muscle fiber type distribution as estimated by Cybex testing and by muscle biopsy
Esther Suter, Walter Herzog, Jason Sokolosky, J. Preston Wiley, and Brian R. Macintosh 363

Applied Sciences

Physical Fitness and Performance

Gradual and rapid weight loss: effects on nutrition and performance in male athletes
G. Mikael Fogelholm, Risto Koskinen, Juha Laakso, Tuomo Rankinen, and Inkeri Ruokonen 371

Effect of stepping rate on energy costs during StairMaster exercise
N. K. Butts, C. Dodge, and M. McAlpine 378

Effect of pacing strategy on cycle time trial performance
Carl Foster, Ann C. Snyder, Nancy N. Thompson, Megan A. Green, Michael Foley, and Matthew Schrager 383

Special Communications
Methods

Reliability and variability of indicators of heart-rate monitoring in children
Robert H. Durant, Tom Baranowski, Harry Davis, Thomas Rhodes, William O. Thompson, Kathryn A. Greaves, and Jacqueline Puhl 389

Oxygen consumption using the K2 telemetry system and a metabolic cart
Claire Peel and Carolyn Utsey 396

$\dot{V}O_{2max}$ estimation from a submaximal 1-mile track jog for fit college-age individuals
James D. George, Pat R. Vehrs, Phillip E. Allsen, Gilbert W. Fellingham, and A. Garth Fisher 401

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
H. John Yack 407

Response
M. D. Grabiner, T. J. Koh, and G. F. Miller 407

Book Reviews 409

Corrigendum 410

Volume 25, No. 4, 1993

Guest Editorial 411

Retrospection

Muscle fatigue
Erling Asmussen 412

Clinical Sciences

Clinically Relevant Symposium: Exercise Capacities and Adaptations of People with Chronic Disabilities—Current Research, Future Directions, and Widespread Applicability
Chairperson: Kenneth H. Pitetti

Introduction: Exercise capacities and adaptations of people with chronic disabilities—current research, future directions, and widespread applicability
Kenneth H. Pitetti 421

Exercise capacity of individuals with paraplegia
Glen M. Davis 423

Exercise responses and quadriplegia
Stephen F. Figoni 433

Physical fitness and exercise training of individuals with mental retardation
Bo Fernhall 442

Exercise and multiple sclerosis
Janet A. Ponichtera-Mulcare 451

Poliomyelitis and the post-polio syndrome: exercise capacities and adaptation—current research, future directions, and widespread applicability
Thomas J. Birk 466

Basic Sciences/Regulatory Physiology
Original Investigations

Effects of Ca^{2+}-channel drugs on K^+-induced respiration in skeletal muscle
William S. Barnes 473

^{31}P-MRS of quadriceps reveals quantitative differences between sprinters and long-distance runners
Gema Bernús, José M. González de Suso, Julio Alonso, Peter A. Martin, Joan A. Prat, and Carles Arús 479

Effect of continuous infusion of an anabolic steroid on murine skeletal muscle
Steven J. Tingus and Richard C. Carlsen 485

Is insulin-like growth factor gene expression modulated during cardiac hypertrophy?
Susan M. Czerwinski, Jan Novakofski, and Peter J. Bechtel 495

Alterations in inspiratory and leg muscle force and recovery pattern after a marathon
Jean-Claude Chevrolet, Jean-Marie Tschopp, Yves Blanc, Thierry Rochat, and Alain F. Junod 501

Applied Sciences

Biodynamics

Interrelationships between mechanical power, energy transfers, and walking and running economy
Philip E. Martin, Gary D. Heise, and Don W. Morgan 508

Psychobiology and Social Sciences

State anxiety and ambulatory blood pressure following resistance exercise in females
Patrick J. O'Connor, Cedric X. Bryant, Jon P. Veltri, and Scott M. Gebhardt 516

Physical Fitness and Performance

Magnetic resonance imaging determination of left ventricular mass: junior Olympic weightlifters
Steven J. Fleck, Pradip M. Pattany, Michael H. Stone, William J. Kraemer, John Thrush, and Keith Wong 522

Prediction of percent body fat in adult males using dual energy x-ray absorptiometry, skinfolds, and hydrostatic weighing
R. Randall Clark, Jacqueline M. Kuta, and Jude C. Sullivan 528

Corrigendum 535

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
John C. Simonsen 536

Response
Stephen C. Glass, Ronald G. Knowlton, and M. Daniel Becque 536

Volume 25, No. 5, 1993

Guest Editorial 537

Retrospection

Exercise, health, aging: a need for more information
John O. Holloszy 538

Clinical Sciences

Case Studies

Symptomatic hyponatremia during prolonged exercise in heat
Lawrence E. Armstrong, William C. Curtis, Roger W. Hubbard, Ralph P. Francesconi, Robert Moore, and E. Wayne Askew 543

Isolated ganglions of the anterior cruciate ligament
Nicola Maffulli, Peter M. Binfield, and John B. King 550

Clinical Review

Exercise-induced asthma
Donald A. Mahler 554

Clinical Investigation

Effects of iron supplementation and discontinuation on serum copper, zinc, calcium, and magnesium levels in women
Ian J. Newhouse, Douglas B. Clement, and Chris Lai 562

Clinical Epidemiology

Physical activity, fitness, and selected risk factors for CHD in active men and women
Alphons M. Bovens, Marleen A. van Baak, Joseph G. Vrencken, Joseph A. Wijnen, Wim H. Saris, and Frans T. Verstappen 572

Basic Sciences/Regulatory Physiology

Original Investigations

Cardiovascular responses in persons with paraplegia to prolonged arm exercise and thermal stress
Maria T. E. Hopman, Berend Oeseburg, and Rob A. Binkhorst 577

Peak oxygen deficit during one- and two-legged cycling in men and women
Peter G. Weyand, Kirk J. Cureton, Donovan S. Conley, and Elizabeth J. Higbie 584

Influence of recreational activity and muscle strength on ulnar bending stiffness in men
Kathryn H. Myburgh, Susan Charette, Linjun Zhou, Charles R. Steele, Sara Arnaud, and Robert Marcus 592

Fibrinolytic and hemostatic parameter response after resistance exercise
Mahmoud S. El-Sayed 597

Effects of repetitive motion on human fibroblasts
Louis C. Almekinders, Albert J. Banes, and Cynthia A. Ballenger 603

Applied Sciences

Physical Fitness and Performance

Exercise ventilatory response to upright and aero-posture cycling
M. Miguel Origenes IV, Sally E. Blank, and Robert B. Schoene 608

Two seasons of weight cycling does not lower resting metabolic rate in college wrestlers
W. Daniel Schmidt, Donald Corrigan, and Christopher L. Melby 613

Special Communications

Methods

Estimation of an individual equilibrium between lactate production and catabolism during exercise
Uwe Tegtbur, Martin W. Busse, and Klaus M. Braumann 620

A survey for assessing physical activity among older adults
Loretta DiPietro, Carl J. Caspersen, Adrian M. Ostfeld, and Ethan R. Nadel 628

Development of a submaximal treadmill jogging test for fit college-aged individuals
James D. George, Pat R. Vehrs, Phillip E. Allsen, Gilbert W. Fellingham, and A. Garth Fisher 643

Corrigendum 647

Body composition analysis of female adolescent athletes: comparing six regression equations
Brenda L. Webster and Susan I. Barr 648

Corrigendum 653

Book Reviews 654

Volume 25, No. 6, 1993

Guest Editorial 655

Retrospection

Phosphorous nuclear magnetic resonance: a non-invasive technique for the study of muscle bioenergetics during exercise
Alexander A. Sapega, David P. Sokolow, Thomas J. Graham, and Britton Chance 656

Clinical Sciences

Clinical Case Studies

An unusual presentation of liver laceration in a 13-yr-old football player
Paul R. Stricker, Brian H. Hardin, and James C. Puffer 667

From parturition to marathon: a 16-wk study of an elite runner
Jeffrey A. Potteiger, John C. Welch, and Judith C. Byrne 673

Clinical Investigations

Decreased salivary immunoglobulins after intense interval exercise before and after training
Laurel Traeger MacKinnon and David G. Jenkins 678

Supervised exercise training improves cardiopulmonary fitness in HIV-infected persons
Rodger D. MacArthur, Sheldon D. Levine, and Thomas J. Birk 684

Does peak $\dot{V}O_2$ reflect $\dot{V}O_{2max}$ in children?: evidence from supramaximal testing
Thomas W. Rowland 689

Weight control practices of lightweight football players
Mary Turner DePalma, Wanda M. Koszewski, James G. Case, Raymond J. Barile, Bernard F. DePalma, and Scott M. Oliaro 694

Basic Sciences/Regulatory Physiology

Symposium: Exercise Training and Orthostatic Intolerance
Chairperson: Peter B. Raven

An overview of the problem: exercise training and orthostatic intolerance
Peter B. Raven 702

Endurance exercise training: conditions of enhanced hemodynamic responses and tolerance to LBNP
Victor A. Convertino 705

Chronic endurance exercise training: a condition of inadequate blood pressure regulation and reduced tolerance to LBNP
Peter B. Raven and James A. Pawelczyk 713

Effect of exercise training on cardiopulmonary baroreflex control of forearm vascular resistance in humans
Gary W. Mack, Victor A. Convertino, and Ethan R. Nadel 722

Regulation of central blood volume and cardiac filling in endurance athletes: the Frank-Starling mechanism as a determinant of orthostatic tolerance
Benjamin D. Levine 727

Original Investigations

Effect of L-carnitine on submaximal exercise metabolism after depletion of muscle glycogen
Jacques Decombaz, Olivier Deriaz, Kevin Acheson, Bernard Gmuender, and Eric Jequier 733

Hormonal responses of elite swimmers to overtraining
Sue L. Hooper, Laurel Traeger MacKinnon, Richard D. Gordon, and Anthony W. Bachmann 741

Applied Sciences

Epidemiology

Relationship of physical activity, body fat, diet, and blood lipid profile in youths 10–15 yr
Esther Suter and Michael R. Hawes 748

Special Communications

Technical Note

Seasonal variation in leisure time physical activity
Daan G. Uitenbroek 755

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Louis C. Almekinders 761

Response
R. David Calvo 761

Book Reviews 762

Volume 25, No. 7, 1993

Editorial 765

Retrospection

Mitochondrial DNA sequence polymorphism, $\dot{V}O_{2max}$, and response to endurance training
France T. Dionne, Lucie Turcotte, Marie-Christine Thibault, Marcel R. Boulay, James S. Skinner, and Claude Bouchard 766

Commentary

The female athlete triad: disordered eating, amenorrhea, osteoporosis
Kimberly K. Yeager, Rosemary Agostini, Aurelia Nattiv, and Barbara Drinkwater 775

Clinical Sciences

Clinical Investigations

The effect of intense interval exercise on iron status parameters in trained men
A. Bon Gray, Richard D. Telford, and Maurice J. Weideman 778

Fatigability of human quadriceps femoris muscle following anterior cruciate ligament reconstruction
Lynn Snyder-Mackler, Stuart A. Binder-MacLeod, and Patrick R. Williams 783

Physiologic responses to shoveling and thermal stress in men with cardiac disease
Sara M. Dougherty, Lois M. Sheldahl, Nancy A. Wilke, Scot G. Levandoski, Martin D. Hoffman, and Felix E. Tristani 790

Iron status and diet in athletes
Richard D. Telford, Ross B. Cunningham, Vicki Deakin, and Deborah A. Kerr 796

Clinical Epidemiology

Fractures, physical activity, and growth velocity in adolescent Belgian boys
Cameron J. R. Blimkie, Johan Lefevre, Gaston P. Beunen, Roland Renson, Jan Dequeker, and Pascal van Damme 801

Basic Sciences/Regulatory Physiology

Original Investigations

Effects of prior exercise or ammonium chloride ingestion on muscular strength and endurance
Ira Jacobs, Andrew J. Hermiston, and J. David Symons 809

Effect of training and anabolic-androgenic steroids on drug metabolism in rat liver
Ana Saborido, Fulgencio Molano, and Alicia Megías 815

Physical activity and immune function in elderly women
David C. Nieman, Dru A. Henson, Gary Gusewitch, Beverly J. Warren, Ruth C. Dotson, Diane E. Butterworth, and Sandra L. Nehlsen-Cannarella 823

Changes of vinculin and extracellular matrix components following blunt trauma to rat skeletal muscle
Katsuya Kami, Mitsuhiko Masuhara, Hitoshi Kashiba, Yoshinori Kawai, Koichi Noguchi, and Emiko Senba 832

Training effects on maternal and fetal glucose uptake following acute exercise in the rat
Michelle F. Mottola, James Mezzapelli, Candice L. Schachter, and Kevin McKenzie 841

Applied Sciences

Epidemiology

The epidemiology of leisure physical activity in an adolescent population
Deborah J. Aaron, Andrea M. Kriska, Stephen R. Dearwater, Robyn L. Anderson, Todd L. Olsen, Jane A. Cauley, and Roland E. Laporte 847

Physical Fitness and Performance

Brief Review

Overtraining in endurance athletes: a brief review
Manfred Lehmann, Carl Foster, and Joseph Keul 854

Original Investigations

Isometric strength, sprint power, and aerobic power in individuals with a spinal cord injury
Thomas W. J. Janssen, Cornelia A. J. M. van Oers, A. Peter Hollander, H. E. J. (Dirk-Jan) Veeger, and Luc H. V. van der Woude 863

Physiological predictors of short-course triathlon performance
Gordon G. Sleivert and Howard A. Wenger 871

Physiological responses during simulated competition
Carl Foster, Megan A. Green, Ann C. Snyder, and Nancy N. Thompson 877

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Paul D. Thompson 883

Response
Blair P. Grubb 883

Volume 25, No. 8, 1993

Guest Editorial 885

J. B. Wolffe Memorial Lecture

Sport, science, and society: ethics in sports medicine
Andrew L. Pipe 888

Clinical Sciences

Case Study

Traumatic myocardial infarction during competitive volleyball: a case report
Paul D. Grossfeld, Daniel B. Friedman, and Benjamin D. Levine 901

Clinical Investigation

Dissipation of claudication pain after walking: implications for endurance training
Andrew W. Gardner 904

Clinical Epidemiology

Cigarette smoking and submaximal exercise test duration in a biracial population of young adults: the CARDIA study
Stephen Sidney, Barbara Sternfeld, Samuel S. Gidding, David R. Jacobs, Jr., Diane E. Bild, Albert Oberman, William L. Haskell, Richard S. Crow, and Julius M. Gardin 911

Survey of NCAA institutions concerning HIV/AIDS policies and universal precautions
Christopher A. McGrew, Randall W. Dick, Kathy Schniedwind, and Paul Gikas 917

Basic Sciences/Regulatory Physiology
Original Investigations

Effect of exercise on natural cytotoxicity and pulmonary tumor metastases in mice
Brian MacNeil and Laurie Hoffman-Goetz 922

The effects of detraining on power athletes
Tibor Hortobágyi, Joseph A. Houmard, John R. Stevenson, David D. Fraser, Robert A. Johns, and Richard G. Israel 929

Applied Sciences
Biodynamics

Eccentric muscle performance of elbow and knee muscle groups in untrained men and women
Judy W. Griffin, Robert E. Tooms, Roger Vander Zwaag, Tulio E. Bertorini, and Mary L. O'Toole 936

Psychobiology and Social Sciences

Perceived exertion during hypobaric hypoxia in low- and moderate-altitude natives
Carl M. Maresh, Michael R. Deschenes, Richard L. Seip, Lawrence E. Armstrong, Kenneth L. Robertson, and Bruce J. Noble 945

Physical Fitness and Performance

Dry-land resistance training for competitive swimming
Hirofumi Tanaka, David L. Costill, Robert Thomas, William J. Fink, and Jeffrey J. Widrick 952

Effect of sodium bicarbonate ingestion on exhaustive resistance exercise performance
Michael J. Webster, Miriam N. Webster, Robert E. Crawford, and L. Bruce Gladden 960

Special Communications

Methods

Carbohydrate ingestion during exercise: liquid vs solid feedings
W. Lee Mason, Glenn McConell, and Mark Hargreaves 966

Technical Note

Validation of a cycle ergometry equation for predicting steady-rate V̇O2

Anthropometric growth patterns of high school wrestlers
Terry J. Housh, Glen O. Johnson, Jeff Stout, and Dona J. Housh ... 1141

The physical condition of elderly women differing in habitual physical activity
Laura E. Voorrips, Koen A. P. M. Lemmink, Marieke J. G. van Heuvelen, Petrus Bult, and Wija A. van Staveren . . . 1152

Biodynamics

Preferred and energetically optimal gait transition speeds in human locomotion
Alan Hreljac . . . 1158

Function of mono- and biarticular muscles in running
Ron Jacobs, Maarten F. Bobbert, and Gerrit Jan van Ingen Schenau . . . 1163

Special Communications

Methods

Self-selected exercise intensity of habitual walkers
Carol C. Spelman, Russell R. Pate, Caroline A. Macera, and Dianne S. Ward . . . 1174

The simplified V-slope method of detecting the gas exchange threshold
Donald A. Schneider, Stephen E. Phillips, and Shan Stoffolano . . . 1180

Technical Note

Validity of near infrared body composition analysis in children and adolescents
Sandra L. Cassady, David H. Nielsen, Kathleen F. Janz, Ying-Tai Wu, Jennifer S. Cook, and James R. Hansen . . . 1185

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Donald L. Bredle . . . 1192

Response
Barbara E. Ainsworth . . . 1192

Book Reviews . . . 1193

ACSM$_{TM}$ Position Stand: Physical Activity, Physical Fitness, and Hypertension . . . i

Volume 25, No. 11, 1993

Clinical Sciences

Clinical Investigations

Low bone mineral density at axial and appendicular sites in amenorrheic athletes
Kathryn H. Myburgh, Laura K. Bachrach, Barbara Lewis, Kyla Kent, and Robert Marcus . . . 1197

Mechanical loading regime and its relationship to bone mineral density in children
Susan K. Grimston, Noreen D. Willows, and David A. Hanley . . . 1203

Gastrointestinal problems as a function of carbohydrate supplements and mode of exercise
Harry P. Peters, Frans W. van Schelven, Peter A. Verstappen, Ruud W. de Boer, Eduard Bol, Wietze B. Erich, Chris R. van der Togt, and Wouter R. de Vries . . . 1211

Basic Sciences/Regulatory Physiology

Original Investigations

Fluid restriction prior to cycle exercise: effects on plasma volume and plasma proteins
Dion H. Zappe, Clarke G. Tankersley, Todd G. Meister, and W. Larry Kenney . . . 1225

Effects of skin blood flow and temperature on bioelectric impedance after exercise
Michael T. C. Liang and Scott Norris . . . 1231

The effects of anabolic steroids on myocardial structure and cardiovascular fitness
Thomas R. Sachtleben, Kris E. Berg, Barbara A. Elias, John P. Cheatham, Gary L. Felix, and Philip J. Hofschire . . . 1240

Canine cardiac sarcoplasmic reticulum is not altered with endurance exercise training
Charlotte Tate, Mary Hamra, Genshun Shin, George Taffet, Perley McBride, and Mark Entman . . . 1246

The response of leukocyte subsets and plasma hormones to interval exercise
A. Bon Gray, Richard D. Telford, Mark Collins, and Maurice J. Weidemann . . . 1252

Applied Sciences

Biodynamics

Oxygen cost of treadmill running in 24-month-old Fischer-344 rats
John M. Lawler, Scott K. Powers, Joan Hammeren, and A. Daniel Martin . . . 1259

A physiological comparison of forward vs reverse wheelchair ergometry
Ariel L. Linden, George J. Holland, Steven F. Loy, and William J. Vincent . . . 1265

The association between cycling experience and preferred and most economical cadences
Anthony P. Marsh and Philip E. Martin . . . 1269

Physical Fitness and Performance

Effects of stair-climbing vs run training on treadmill and track running performance
Steven F. Loy, George J. Holland, Debbie L. Mutton, Jeffrey Snow, William J. Vincent, James J. Hoffmann, and Stephen Shaw 1275

The optimal training load for the development of dynamic athletic performance
Greg J. Wilson, Robert U. Newton, Aron J. Murphy, and Brendan J. Humphries 1279

Special Communications

Methods

Evaluation of a shallow water running test for the estimation of peak aerobic power
Leonard A. Kaminsky, K. Wayne Wehrli, Anthony D. Mahon, Gwen C. Robbins, Debra L. Powers, and Mitchell H. Whaley 1287

An application of mechanostat theory to research design: a theoretical model
Susan K. Grimston 1293

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Patrick J. O'Connor 1298

Response
Robert Huizenga and Rick Jehue 1298

Letter to the Editor-in-Chief
Kevin K. McCully 1299

Response
Gema Bernús, Julio Alonso, Carles Arús, and José Manual, González de Suso 1299

Book Reviews 1301

Volume 25, No. 12, 1993

Clinical Sciences

Clinically Relevant Review

Recent advances in understanding maternal and fetal responses to exercise
Robert G. McMurray, Michelle F. Mottola, Larry A. Wolfe, Raul Artal, Lynnae Millar, and James M. Pivarnik 1305

Clinical Epidemiology

Injuries to elite gymnasts over 10 yr
Michael Dixon and Peter Fricker 1322

Injuries in adolescent and preadolescent soccer players
W. Ben Kibler 1330

Basic Sciences/Regulatory Physiology

Brief Review

Skeletal muscle fiber hyperplasia
Jose Antonio and William J. Gonyea 1333

Original Investigations

Reverse cholesterol transport with acute exercise
Barbara N. Campaigne, Robert N. Fontaine, Myung-Sook C. Park, and Zbigniew J. Rymaszewski 1346

Increased $CD45RA^+CD45RO^+$ cells indicate activated T cells after endurance exercise
Holger Gabriel, Barbara Schmitt, Axel Urhausen, and Wilfried Kindermann 1352

Rowing performance, fluid balance, and metabolic function following dehydration and rehydration
Caroline M. Burge, Michael F. Carey, and Warren R. Payne 1358

Applied Sciences

Biodynamics

Walking and running energy expenditure estimated by Caltrac and indirect calorimetry
Emily M. Haymes and William C. Byrnes 1365

Physical Fitness and Performance

Brief Review

Effects of nutrition on performance in soccer
Donald T. Kirkendall 1370

Physical Fitness and Performance

Original Investigations

Effects of benzodiazepine during a Wingate test: interaction with caffeine
Katia R. Collomp, Said B. Ahmaidi, Corinne F. Caillaud, Michel A. Audran, Jean L. Chanal, and Christian G. Préfaut . . 1375

Acute effects of different intensities of weight lifting on serum testosterone
Robert Schwab, Glen O. Johnson, Terry J. Housh, James E. Kinder, and Joe P. Weir 1381

Effects of iron repletion on $\dot{V}O_{2max}$, endurance, and blood lactate in women
John J. LaManca and Emily M. Haymes 1386

Effect of run vs combined cycle/run training on $\dot{V}O_{2max}$ and running performance
Deborah L. Mutton, Steven F. Loy, Danette M. Rogers, George J. Holland, William J. Vincent, and Ming Heng 1393

Energy balance in highly trained female endurance runners
Jeffrey E. Edwards, Alice K. Lindeman, Alan E. Mikesky, and Joel M. Stager 1398

Special Communications

Methods

A new tool for evaluating energy expenditure: the "QAPSE" development and validation
Sophie E. Berthouze, Pierre M. Minaire, Jean-Claude Chatard, Chantal Boutet, Josiane Castells, and Jean-Rene Lacour 1405

Evaluation of the Children's Activity Rating Scale (CARS) in young children
Robert H. DuRant, Tom Baranowski, Jacqueline Puhl, Thomas Rhodes, Harry Davis, Kathryn A. Greaves, and William O. Thompson 1415

Weekly variability in total body water using ^2H_2O dilution in college-age males
William P. Bartoli, J. Mark Davis, Russell R. Pate, Dianne S. Ward, and Philip D. Watson 1422

Letters to the Editor-in-Chief

$\dot{V}O_{2peak}$ and end-stage renal disease
T. D. Noakes and W. Diesel 1429

Response
Geoffrey E. Moore and Jere H. Mitchell 1430
